11/22/72

Dear Art,

Had I stopped to think of it, I'd have expected to hear you for the Day of the Drum.

Hope things go well.

I wrote you at KHJ 10/27, writing "please forward" on the envelope. I'd then phoned you and was told you were no longer there. I could learn nothing more.

It may be no more than a coincidence, but the time of your leaving, immediately after the suggestion I made to you, which overlaps a few untoward things here, and the political desires of your ownership, made me wonder if your departure was not entirely voluntary.

Particularly because only a day or so earlier you had given no indication of planning it.

Such things have happened to others.

Best,
